REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Mitchell's unique identity derives from its location, curricular offerings, and people. Most families live within walking distance; over 80% of our students walk to and from school. Each morning, many parents have breakfast with their children in the cafe or walk them to class to check-in with the teacher. At dismissal, many are waiting for their children at Mitchell Park, again offering a chance to talk to teachers, their child's classmates, and other families. This constant communication builds the trust and ownership among our families that creates our uniquely warm, positive school climate.

Our location in downtown Charleston has helped us establish many community partnerships that contribute to our focus on health and wellness. Our students have PE three times a week thanks to donations, partnerships, strategic resource allocation, and a staff dedicated to offering movement-based opportunities. For these opportunities, we use our Action Based Learning Lab, our All Minds eXercise (AMX) room, yoga, Pilates, and our Family Fitness Fun Nights. In addition, we have a variety of initiatives that focus on student/faculty health, including a \$120K grant from Boeing through the College of Charleston for our Green Heart Project, a partnership with MUSC that provides pediatricians on campus weekly to see kids, and a partnership with Charleston Community Yoga that provides free yoga classes to faculty.

In 2009-2010, Mitchell opened its doors for the 101st time, that year as a "partial magnet" school. Our community engagement discussions revealed a clear desire to establish a math and science magnet and a Montessori program. Our Montessori program includes primary classes (ages 3-5) and lower elementary classes (ages 6-8). Our math and science program allows all students to take at least four science-based field trips yearly and to open and manage their own bank accounts at school. Our 3rd graders participate in an urban gardening project, our 5th graders learn math through a program taught in the school by local architects, and, through a grant with COSEE, our 4th graders constructed ocean buoys this spring and our 5th graders will construct remote-controlled underwater vehicles next year. We also started Lego Robotics this year and will soon compete locally and on the state level. These STEM activities are a few examples of opportunities our students have through our math and science focus.

Mitchell's teachers and staff are among the most qualified, dedicated, and motivated in CCSD. Our people - from our one-of-a-kind cafeteria staff to our teachers to our more than 150 volunteers - model the ambition, respect, and kindness we explicitly teach our students. Our staff identifies "staff motivation," "teamwork," and "dedication" as three of the defining characteristics of the people who make up our team. We believe in bringing a problem-solving approach to all that we do and that all children deserve a positive learning experience. And so, we strive every single day to create a positive, encouraging, and nurturing environment where students are held to extremely high standards and are free to take risks and ask questions. Through its valued community partnerships, continued parental involvement, improved student performance, and inspired teacher passion, Mitchell expects its commitment to excellence to continue to yield monumental outcomes for the students, families, and community it serves.
